The **Ag Is Magic Show** is exiting and educational. It is the result of Gary Weimer's more than forty years of experience as an agricultural educator and magician. Gary has combined both areas of expertise to create a presentation that engages and amazes audience members while revealing why agriculture is important to everyone. Spectators laugh while learning facts about agriculture and they participate in the story of food production. Sometimes Gary is joined on stage by his friend, Rodger Rooster. You never know what Rodger will do and that can make learning about agriculture very exciting.

Gary Weimer grew up on a dairy farm in western Pennsylvania. He has taught agriculture on the secondary and post-secondary levels. His interest in magic began when he was a boy. He has performed in large theaters and intimate venues. Gary has appeared on television and even performed on the radio. Don't miss this special opportunity to see the **Ag Is Magic Show!**
